

Homeschool Companion : State Studies

Week 11

Name: _____ Date: _____

Habitat for Study _____

Describe the landscape: _____

What plants can be found here? _____

What animals can be found here? _____

What makes this habitat unique? _____

What are some problems plants and animals in this habitat face? _____

Everglade Habitats:

For this assignment start by watching the free video series “Everglade Mountains and Valleys” (<http://www.nps.gov/ever/photosmultimedia/mountainsand-valleys.htm>). Then choose your favorite Everglade Habitat and complete the Habitat Journal. You may need to do some further research online or at the library.
