Visit our website for step by step instructions.

### General Instructions:

Paint face and shoulders white. Add facial features. (Fine tip felt pen or paint.)

Glue body wrap to wood-turning.

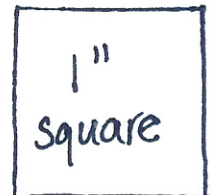

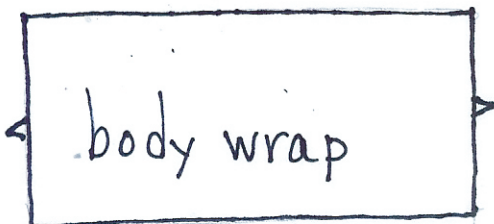

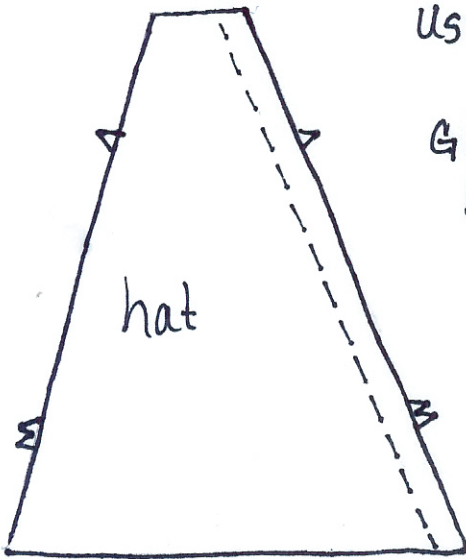

Use 2 strands of embroidery and blanket stitch hat. Make sure to overlap 1/8".

Glue hat on gnome.

Beginning at hat point, glue fabric strip to gnome in circular manner. Overlap slightly.

Occasionally cut strip and start again leaving a tail to give a tattered look.

Cut strip to give a criss cross look at the face. Make sure to use plenty of glue especially each time you cut fabric and restart wrapping.
